Ford Expedition Brake Warning Light Causes. The brake warning light indicates that your Expedition has detected that one of its major brake components has failed, typically detected through a loss of pressure. You'll feel a loss of pressure that manifests itself in the form of a "mushy" brake pedal. If the brake light is only coming on when you push the brakes, that's a definite indication that the pressure in the brake system is too low. Either the brakes need bled, or there is a ...
