Aerobatics

Aerobatics (a portmanteau of aerial-acrobatics) is the practice of flying maneuvers involving aircraft attitudes that are not used in normal flight. Aerobatics are performed in airplanes and gliders for training, recreation, entertainment, and sport.

Aerobatics - Wikipedia

aerobatics: [noun, plural in form but singular or plural in construction] spectacular flying feats and maneuvers (such as rolls and dives).

Aerobatics | Definition of Aerobatics by Merriam-Webster

Aerobatics, maneuvers in which an aircraft is flown under precise control in unusual attitudes (the position of an aircraft determined by the relationship between its axes and a reference such as the horizon). A myriad of aerobatic maneuvers exist, some of the better-known being rolls, loops, stall turns (hammerheads), and tailslides.
