AP Biology Labs. The AP college board lists 13 labs for its recommended curriculum, summarized in the publication, AP Biology Investigative Labs. However, teachers are not limited to only using their versions of the lab. AP biology teachers submit a curriculum for review and approval and must include laboratory exercises that align with their core ideas.

AP Lab 3: Comparing DNA Sequences to Understand Evolutionary Relationships with BLAST. Background Information . Between 1990–2003, scientists working on an international research project known as the Human Genome Project were able to identify and map the 20,000–25,000 genes that define a human being.

AP Biology - Investigation 3 - DNA BLAST

AP® Biology lab investigations allow you to explore the natural world, and provide opportunities for you to choose to study what interests you most about each concept. Science is about the process of investigating, and should be a central part of your experience in AP Biology. Performing labs also gives you insight into the nature of science, and helps you appreciate the investigations and processes that result in the collection of facts that your textbook and your
