\$domain Public Library provides a variety of services available both in the Library and online. ... There are also book-related puzzles and games to play.

Baby Sense 5

Hisense, the manufacturer of the Babysense 5s released the first version of the monitor in 1992. Over 20 years later, the look of the monitor has changed but the proven technology remains unchanged. Winner of our Top Pick for Simplicity and Ease of Use, it functions in the same manner as the Angelcare AC401 with an under-the-mattress sensor pad detecting movement.

5 months: He's developing eye-body coordination. Notice how he looks at something and then tries to reach for it?

Your Baby's Developing Senses | Parents

Babysense Petite Clip is a portable baby movement monitor, intended for detection of cessation of movements in infants. It is a highly sensitive device that monitors a baby's tummy movements through a sensor that clips to the baby's diaper and gives an alert to caretakers if the infant's micro-movements stop or become irregularly slow.

Babysense Petite Clip - Portable Movement Monitor - Babysense

You need the all-new V65 monitor with two baby cameras by Babysense. We equipped it with highly detailed 5" High-Definition LCD color video screen and 2x HD cameras, so you can monitor your baby in 1 or 2 rooms from multiple angles.
