BMW E36 DIY (Do It Yourself)

In 1993, the M40 was replaced by the BMW M43 SOHC engine and the M42 was replaced in 1996 by the BMW M44 DOHC engine. For the six-cylinder models, the E36 was launched with the then-new BMW M50 DOHC petrol engine. In 1993 the M50TU versions added single-VANOS (variable valve timing), which increased torque (peak power was unchanged).
