Bombay Islam - Assets

It is the nature and significance of this religious economy that Bombay Islam explores as a parallel to the predominantly Christian but no less internally pluralistic and productive religious economy of the industrializing Atlantic in the same period.

Bombay Islam | Nile Green

Religion and economy – abstractions for understanding religious and economic practices – have long been deeply intertwined in this part of West Africa, perhaps most notably in the direct involvement of Muslim scholars and religious leaders in such economic activities as the precolonial trans-Saharan trade in gold, salt, and slaves that spanned centuries (see Lydon 2009).
