Project Gutenberg is a wonderful source of free ebooks – particularly for academic work. However, it uses US copyright law, which isn't universal; some books listed as public domain might still be in copyright in other countries. RightsDirect explains the situation in more detail.

### Buda 6 Cylinder Engine

Buda's engines were water-cooled, in-line four, six, or eight-cylinder models. Buda advertisements in the early 1900s proclaimed Buda as "Pioneer of the cast-in-block" method. Their engines featured long stroke, enclosed valves, noiseless timing gears, and self-contained oiling system.

### Buda Engine Co. - Wikipedia

Buda's engines were water-cooled, in-line 4, 6, or 8 cylinder models. Buda advertisements in the early 1900's proclaimed Buda as "Pioneer of the cast-in-block" method. Their engines featured long stroke, enclosed valves, noisless timing gears, and self contained oiling system. Early 4-cylinder gasoline fueled models produced 30 to 60 bhp.

### Buda Engine For Sale - Parts For Tractors

This engine was known as the 6000 series and it produced 52 horsepower in naturally aspirated form. As the HD-6 evolved there were many versions of the machine to cater for different customer requirements and conditions, and like the HD-6's biggest competitor, the Caterpillar D4, the HD-6 was available in two track gauges – 44 inch and 60 inch.

The info I have from the 1950's on the Buda diesels shows a 4 or 6 cylinder engine based on the Lanova combustion chamber (as did Mack). Good to hear Rosso has identified the engine. Although there have been one or two 'flathead' diesel engines, I doubt they ever were sucessful, and I am sure there are plenty of side valve Buda petrol engines ...
