As I have started to notice a few people asking about doing a engine swap into a ED/EF I've decided to make a guide for the swap. This is a basic guide to a B-series engine conversion into a 1988-1991 Honda Civic ED. This is not meant to be a how to guide, just some general information on what to look out for, and what you will be getting yourself into. To start off I will try to explain a few things about why I chose an ED for my track project.
