De Anima On The Soul

On the Soul (Greek: Περὶ Ψυχῆς, Peri Psychḗs; Latin: De Anima) is a major treatise written by Aristotle c. 350 BC. It is not about spirituality but rather a work in what might best be described as biopsychology, a description of the subject of psychology within a biological framework. His discussion centres on the kinds of souls possessed by different kinds of living things ...

On the Soul - Wikipedia

De Anima (On the Soul) is Aristotle's introduction to a series of lectures on biology. Let this remark work on you for a moment. This is a radically different conception of the soul compared to us modern people. We stand firmly in the Cartesian tradition of substance-dualism, which implies there's matter and there's mind/soul.

De Anima (On the Soul) - Goodreads

Written in the 4th century BC, "De Anima (On the Soul)" by Aristotle is a work on biology and explores the nature of life in general and of the soul in particular. What is it that makes things alive? The subsequent attempts to answer the questions about the immortality and immateriality of the soul have had a major influence on Western (and Eastern) philosophy, theology and culture.

De Anima (On the Soul) (Classics) - Kindle edition by ...

Aristotle's De Anima is the first systematic philosophical account of the soul, which serves to explain the functioning of all mortal living things. In his commentary, Ronald Polansky argues that the work is far more structured and systematic than previously supposed.

Aristotle, On the Soul (de anima) trans. J.A. Smith. I.1. HOLDING as we do that, while knowledge of any kind is a thing to be honoured and prized, one kind of it may, either by reason of its greater exactness or of a higher dignity and greater wonderfulness in its objects, be more honourable and precious than another, on both accounts we should naturally be led to place in the front rank the ...

Aristotle, On the Soul (de anima) - Web Server: faculty

...thinking in De anima (On the Soul), Aristotle says that the intellect, like everything else, must have two parts: something analogous to matter and something analogous to form. The first is the passive intellect, the second the active intellect, of which Aristotle speaks tersely. "Intellect in this sense is... Read More; soul

On the Soul | work by Aristotle | Britannica

42 - Soul Power: Aristotle's De Anima. Peter tackles the De Anima ("On the Soul"), focusing on the definition of soul as the form of the body and Aristotle's theory of sensation.

42 - Soul Power: Aristotle's De Anima | History of ...

In short, philosophers themselves, and medical men, even when it is their purpose to discourse about the mind, do in every instance inscribe on their title-page 91 and table of contents, 92 "De Anima" ("A treatise on the soul"). And that you may also have God's voucher on the subject, it is the soul which He addresses; it is the soul which He exhorts and counsels, to turn the mind and intellect to Him.

Ante-Nicene Fathers, Vol. III : On the Soul

Aristotle is interested in compounds that are alive. plants and animals—are the things that have souls. Their souls are what makethem living things. Since form is what makes matter a “this,” the soul is the formof a living thing.

On the Soul (Greek Περὶ Ψυχῆς, Peri Psūchḗs; Latin De Anima) is a major treatise by Aristotle on the nature of living things. His discussion centres on the kinds of souls possessed by different kinds of living things, distinguished by their different operations.

De anima | Project Gutenberg Self-Publishing - eBooks ...

About De Anima (On the Soul) For the Pre-Socratic philosophers the soul was the source of movement and sensation, while for Plato it was the seat of being, metaphysically distinct from the body that it was forced temporarily to inhabit. Plato's student Aristotle was determined to test the truth of both these beliefs against the emerging sciences of logic and biology.

De Anima (On the Soul) (Classics): Amazon.co.uk: Aristotle ...

His examination of the huge variety of living organisms - the enormous range of their behaviour, their powers and their perceptual sophistication - convinced him of the inadequacy both of a materialist reduction and of a Platonic sublimation of the soul. In De Anima, he sought to set out his theory of the soul as the ultimate reality of embodied form and produced both a masterpiece of philosophical insight and a psychology of perennially fascinating subtlety.
