Differentiated Instruction Strategies 1. Organize students into groups of 3-5 students based on independent reading level. At each reading level, provide two or three author study sets - groups of ten or more titles by the same author. Each group of students chooses one of the author study sets from the choices at their reading level. 2.

So what does differentiated reading instruction look like? I invite you to step inside my eighth-grade classroom at the beginning of my reading workshop. After a brief warm-up exercise, and a read aloud for enjoyment, I introduce an essential component of my approach to differentiated reading instruction — the teaching read aloud.

What Is Differentiated Instruction? | Scholastic

Differentiated instruction is a process to teaching and learning for students of differing abilities in the same class. The intent of differentiating instruction is to maximize each student's growth and individual success by meeting each student where he or she is and assisting in the learning process.

Math / Math Differentiation

Differentiated instruction is a teaching philosophy based on the premise that teachers should adapt instruction to student differences. Rather than marching students through the curriculum in lockstep, teachers should modify their instruction to meet students' varying readiness levels, learning preferences, and interests.
