### 2000 Dodge Durango Brake Lines And Hoses - AutoZone.com

The rear brakes on your Dodge Durango use a drum-and-shoe system to provide roughly 30 to 40 percent of the stopping force for the truck. Because they are on the rear of the truck, the transfer of weight when stopping shifts most of the force away from them and to the front disc brakes. The result is a brake shoe and ...

### How to Replace a Dodge Durango Drum Brake | It Still Runs

The V6 or V8 power of your Dodge Durango gives it the capability traditionally expected from a bigger SUV, but when this massive power needs to be safely brought to a full stop, it is a properly functioning braking system that really matters. The brakes operate with the help of hydraulic pressure which has to force the brake pads or shoes against the discs or drums, creating friction that ...
