Engine Code P0420 Subaru
P0420 SUBARU Meaning The Engine Control Module (ECM) monitors the switching frequency ratio of heated oxygen sensors 1 (front O2 sensor) and heated oxygen sensors 2 (rear O2 sensor). A three way catalyst converter (Manifold) with high oxygen storage capacity will indicate a low switching frequency of heated oxygen sensor 2.

P0420 SUBARU - Engine-Codes.com
P0420 code was detected, and Subaru dealer eventually performed catalytic converter replacement under warranty. At 60,000 mile maintenance, dealer replaced valve cover gaskets and timing belt. At 75,000 mile maintenance, Dealer replaced head gasket under warranty.

Subaru Check Engine Light and Code # P0420 Explained - All ...
As the code description implies the P0420 code means that the vehicle's control module has detected that the three-way catalytic converter is not working properly (is not as efficient as the factory is expecting). Replacing the oxygen (O2) sensors may sometimes fix the code, but in most cases the catalytic convert needs to be replaced to fix the problem.

P0420 SUBARU Catalyst System Efficiency Below Threshold
P0420 is a very common trouble code. This code number references a number that is given to you when you plug your Subaru Outback into a OBDII scanner. It doesn't matter which model you have, this OBDII code has the same meaning for all of them (1996+) Subaru Outback P0420 OBDII Code Defined. P0420 is a OBDII trouble code. The code technically stands for: Catalyst System Efficiency Below Threshold

Subaru Outback P0420: Catalyst System Efficiency → Below ...
P0420 is a very common trouble code. This code number references a number that is given to you when you plug your Subaru Forester into a OBDII scanner. It doesn't matter which model you have, this OBDII code has the same meaning for all of them (1996+) Subaru Forester P0420 OBDII Code Defined. P0420 is a OBDII trouble code. The code technically stands for: Catalyst System Efficiency Below Threshold

Subaru Forester P0420: Catalyst System Efficiency → Below ...
The P0420 code in a Subaru Impreza will often be thrown one of your oxygen sensors are not functioning properly. Typically, the code will be triggered by the upstream oxygen sensor (before the converter). There aren't usually any drivability issues associated with P0420.

Subaru Impreza P0420: Catalyst System Efficiency → Below ...
P0420 means that the efficiency of the catalytic converter is below the threshold. The ECM uses two O2 sensors, one in the front and one in the back of the catalytic converter to measure the efficiency. If the efficiency is low, the P0420 code will be triggered. We receive a lot of messages from our customers about the P0420 code.

P0420 Code [How to Fix it?] Meaning, Symptoms, Causes
This low kilometer Subaru Impreza flags a P0420 Catalyst efficiency fault code very quickly. The rear O2 sensor would behave almost like the catalytic conver...
