## **How Often Should You Change Synthetic Oil?**

Let us simplify it for you. Conservative estimates for oil-change intervals used to be as low as 3000 miles, before significant improvements in fuel-delivery systems, engine materials,...

## **When Should You Change Your Oil?**

The engine oil change interval is the time between oil changes expressed in miles or kilometers. Engine oil change intervals are dictated by various factors like: engine type (diesel or petrol), the engine mileage, overall engine condition (does it burn oil), are you using synthetic or mineral oil, quality of gas (petrol) etc.

## **ENGINE OIL CHANGE INTERVAL FOR YOUR CAR**

A study at GM (who usually recommends around an 8,000 mile interval) found that a vehicle could go as long as 17,000 miles between oil changes without significantly degrading the oil.

## **Synthetic Oil Change Interval | Advance Auto Parts**

The traditional recommendation is that you should change your oil every 3,000 miles or 6 months, whichever comes first. However, the new standard is that you can typically change your oil every 5,000 miles worry-free (especially if you are driving a relatively new car or are in “optimal operating conditions”).

## **How Often Should You Change Your Oil? - dummies**

How Often to Change the Oil Some swear by the “every 3,000 miles or every 3 months” rule, but advances in engines and oil have made that guidance obsolete. Many automakers have oil-change intervals...

## **5 Things to Know About Oil Changes for Your Car - Consumer ...**

There are four main "recommended" intervals for oil changes based on factors specific to you and your car: Every 1,000 miles (1,609 kilometers) or every six months. Every 3,000 miles (4,828 kilometers) Every 5,000 to 7,500 miles (8,046 to 12,070 kilometers)

## **The Dirty Truth About How Often You Need Your Oil Changed ...**

An oil change, which drains old oil and replaces with fresh new oil, helps to keep an engine properly lubricated. Years ago, engine oil changes were typically prescribed at a set interval, which was usually based upon mileage. It wasn't uncommon to see owner's manuals and maintenance shops advising drivers change oil every 3,000 or 5,000 miles.

## **How To Use Your GMC Oil Life Monitor - GMC Life**

Step 2: Change the oil after the first 5-10 hours of use. It is very important to perform the initial break-in oil change. After the first 5-10 hours of operation, the oil should be changed to remove asperities that have broken from the bearings of the engine components and cylinder wall.
