diffusing material to the side walls. See our step-by-step instructions below.

Carpeting or acoustic ceiling tile will reduce floor/ceiling flutter echo.

Absorptive treatments like the Auralex SonoLite panels are very effective at taming flutter echo. But they won't cure all room acoustics problems.

Room Acoustics Guide - Crutchfield

Acoustic material reduces the energy of sound waves as they pass through. It suppresses echoes, reverberation, resonance and reflection. Uses of Acoustic Material. Acoustic materials can be used for noise reduction and noise absorption. It makes the sound more audible which is clear to listen without
