Fox Rc4 Setup Guide

To set sag on your DHX RC4: Measure sag, and compare it to the recommended sag setting shown in the Coil Spring Setting Guidelines table below. Continue if the sag is not to specification. Adjust the preload ring accordingly: If your sag value is less than the table value, turn the preload ring counter-clockwise. Always ensure that the spring is secure and does not freely move.

DHX RC4 - FOX

Make sure your RC4 compression adjusters are set to their lightest settings (both fully counter-clockwise). Starting with the rebound adjuster in the fully open position (counter-clockwise) push down on the saddle to compress the shock and feel its return speed.
