Globalisation And

The Roman World

Globalisation is apparent in increased flows of objects, people and ideas and in the creation of translocal consciousness in everyday life. Based on these criteria, there is a case for globalisation in the ancient Roman world. Essential for anyone interested in Romanisation, this volume provides the first sustained critical

Material Culture

**Staff View:
Globalisation and
the Roman world**

Globalisation and the Roman World (2014), edited by myself and Miguel John Versluys (Leiden University), is a new book that examines the case for understanding the ancient Roman world as one of the earliest examples of globalisation.

Globalisation And The Roman World

Globalism refers to various systems with scope beyond the merely international. It is used by political scientists, such as Joseph Nye, to describe "attempts to understand all the interconnections of the modern world—and to highlight patterns that underlie (and explain) them." While primarily associated with world-systems, it can be used
