The Great Wall of China was constructed between the 5th century B.C.E. and the 16th century A.D. It was originally built to protect the Chinese Empire from northern invaders. An important section was completed during the rule of Emperor Qin Shi Huang Di between 220-226 B.C.E. Large sections of the structure still stand today, as it stretches

Great Wall of China. The Great Wall of China is the longest manmade structure in the world. It was built across China from the 3rd century BC to the 17th century AD, and is more than 20,000km long! The Great Wall is much more than a wall - it includes the walls, watch towers, shelters, horse tracks, fortresses, and open passes.
