Digital Camera Resolution Chart - B&H Photo

The first product in our guide is the Amcrest UltraHD 4K dome camera. This product comes with an ultra HD level of resolution, which means that all video will be in 3840 X 2160 resolution. This product has a high level of video capabilities; it's completely motorized and has a varifocal lens for precision.

10 Best High Resolution Night Vision Security Camera-Buyer ...

You may have noticed that the number of pixels and the maximum resolution don't quite compute. For example, a 2.1-megapixel camera can produce images with a resolution of 1600x1200, or 1,920,000 pixels. But "2.1 megapixel" means there should be at least 2,100,000 pixels. This isn't an error from rounding off or binary mathematical trickery.

Digital Camera Resolution | HowStuffWorks

Although the megapixel race has been going on since digital cameras had been invented, the last few years in particular have seen a huge increase in resolution - we have seen everything from 41 megapixel camera phones to now 50.6 megapixel full-frame DSLR cameras. It seems like we have already reached the theoretical maximum for handling noise at high ISOs with the current generation sensor ...
