The final GPS for international travel worth considering is the Garmin Nuvi 270. This model comes with a smart park position feature that helps you remember where you've left your car after wandering around a city all day. However, you'd have to take the GPS along with you to use this feature, and it's a bit bigger than the Nuvi 2455.

...

International GPS tracking devices are designed to take the worry out of international travel, giving you peace of mind. Even if cell phones are not receiving signals, you will be able to use an international GPS tracker to determine a vehicle's location, speed, direction of travel, and more.

International GPS Trackers | Worldwide GPS Tracking

In fact, the only international map you can buy from Magellan is a map of Europe. Without maps for any other area of the world, Magellan isn't the manufacturer for the world traveler. Magellan devices also don't support any third-party maps, which renders the devices useless outside of the U.S., Canada and Europe.

Forge of Empires Forge of Empires – A free to play browser game. Good strategy online games are what Forge of Empires stands for. As a chieftain who founds his settlement anno 5000 B.C. in the Stone Age with little more than a few tents, it is your task to show your online strategy game skills and develop your city through the ages of history in this browser based empire game.

Forge of Empires - Free online strategy game

In the experimental (non-clinical) research arena, good laboratory practice or GLP is a quality system of management controls for research laboratories and organizations to ensure the uniformity, consistency, reliability, reproducibility, quality, and integrity of products in development for human or animal health (including pharmaceuticals) through non-clinical safety tests; from physio-chemical properties through acute to chronic toxicity tests.

Good laboratory practice - Wikipedia

The GLPs are designed to protect scientific data integrity, and to provide the EPA or FDA with a clear and auditable record of open-ended research studies. In contrast, the GMPs are intended to demonstrate to the FDA whether or not individual batches of a regulated product are manufactured according to pre-defined manufacturing criteria.
