I recently got a new client and there previous IT people setup their SSG 5 with a VPN tunnel to one of their vendors. It's been working fine for some time, but one of the client machines crashed. They bought a new machine from a local shop, same OS (XP) and got it back on the network. I've checked a...

The following instructions will reset the SSG-140 to factory default. Resetting ScreenOS to factory default will wipe out the whole configuration of the device and you need to reconfigure or restore configuration from backup. METHOD 1: 1- Connect to it through Console/Serial. 2- Login with the serial number of the SSG as the username and password.
