I was wondering what some of the best choices are for a relatively easy swap into my 650 X2. I know that a Kawasaki 750sx engine is pretty much a straight forward easy swap, but I have already had a few of those. I wanted to know what the next best motor to swap is for a little more power without too much hassle or added weight? I don't mean "what is the biggest cc motor to swap", just a good ...
