I've got a Lamona HJA 8631 fully integrated dishwasher. It's about 14 months old and has suddenly stopped draining at the end of a wash cycle. I've scooped and soaked the water up, removed the filters and given them a good clean. I then started a really hot, empty cycle to see if that blasted through. Unfortunately, exactly the same result.

The integrated dishwasher door is also held in place by small rollers that fit into slots on the front of the door and metal connection pieces that look like small brackets that attach to the door. Grab the sides of the integrated door with both of your hands. Pull it straight up to lift it off of the front of the dishwasher.
