I'm doing this all the time already on linux. So please tell me what's so different now? I would really like to be able to place scenery packs within subfolders. That would make the custom scenery folder with ortho-packs that consist of dozens of folders look much cleaner and I could group sceneries into folders.

### **Shortcuts/Aliases For Scenery Packs | X-Plane Developer**

The view and the scenery are almost entirely separate ideas. For example, you could live in a location with beautiful scenery (a Rain Forest, a picturesque valley, etc) but have a terrible view (large tree completely blocking your window), while you could have an incredible view (large glass windows, nothing blocking them, clear sight lines) of horrible scenery (for example, a Waste Disposal ...
