### MAN Maintenance Schedule for Marine Diesel Engines

The MAN common rail engine started appearing in marine applications in 2005 and is still widely used today in horsepower applications from 600hp to 1550hp. It was regarded as a huge leap in technology from the old non-common rail MAN engines due to its increases in fuel efficiency and performance and its decreases in vibration, smoke and noise.

### MAN Common Rail Engine Maintenance Plan

The two Common Rail diesel engines, type R6 800, each with an output of 800hp, stand out because of their weight, they are economical in use and run almost silently. But obviously, the performance of the engines is the main reason for the choice; they fully meet all expectations.
