Just became a recent owner of a BNC-34S from Miyano. Control is a GE Fanuc O-T. Had a few questions that the previous owner wasn't able to provide me with, so was hoping someone can point me in some sort of direction. First off, the manual I received appears to be a mix of the BNC model and BND model, with both having different M codes.

## **Metalworking Lathes - Miyano**

I have a Miyano BNC 34 lathe that I purchased approx 10 years ago. It was never put to use until about 4 years ago we had it running but the turret movement seemed sticky and it finally stuck completely, won't turn. It seems like the lubricant may have mixed with some unknown coolant residue and gummed things up. That's just an uninformed guess.
