### Modernity And Housing

Modernity and Housing is an intelligent and original work that fills important gaps in the literature about this building type. It combines issues of ethics, philosophy, technology and politics to explain housing of this century, and to justify housing as a major focus for contemporary design professionals- both architects and urban planners.

### Modernity and Housing | The MIT Press

Modernity and Housing embraces three more or less parallel themes concerning modernity: the rise of technocracy and the attendant tendency of modern space to become universal while the experience of time is confined to the present; the problem of representation for a culture in which subject-centered reason has replaced metaphysical foundations; and social practices that give rise to urban concentrations and the production of mass housing on an unprecedented scale.

Modernity and Housing also offers a refresher course in the principles behind this century's most noteworthy attempts at establishing new urban communities. Six successful examples in the United States and Europe (three from the 1920s, three from the 1970s) are accorded the same clearheaded analysis in a series of detailed case studies that underscore the multiplicity of options that must be considered in our fragmented society."

Anything modern is what is in vogue and in fashion such as modern music, modern painting and modern apparels. We talk of modern history that relates to recent times, modern lifestyle, modern technology and modern way of thinking. However, there are two words related to this word modern that seem to be confusing. These are modernism and modernity.
