### MORI Seiki SL-3 Manuals - IndustryArena

I have a friend with a older mori seki s13 that has no wire diagram an I need to find one.it has the yasnac 2000g control with a mfg number of 2348. The control cabinet says yasnac 2000g sn:s16114-1-7 mfg date of 1-1981 pn. 188. Would really like the wire diagram for the machine. But would appreciate any help. Thanks

Recently a friend bought a used Mori Seiki SL3 with FANUC 6T Controller. We started making simple programs very quickly and one day the machine just didn't move. When I turn the machine on I used to type G28 U0.0 W0.0 to move to reference point but this doesn't work anymore. The only way I can move the machine is in JOG mode or with the handwheel.
