Rounding a number is when you take a number and "bump it up" or "bump it down" to a nearby and "cleaner" number. A number can be rounded to any place value you want. If you type in a number you wish to round below, and select what place value you want to round it to, this selection will show you how to round it!

The United States and Britain expressed optimism about the prospects of a trade deal on Tuesday as they launched the latest round of talks focused on goods and tariffs.

### U.S., Britain upbeat as trade talks enter new round | Reuters

As an employer, generally, yes. It is common and acceptable for employers to round to the nearest tenth, quarter, or half hour when determining an employee's hours worked. But if you choose to round, you must use a consistent rounding principle. You may not, for instance, round for some employees who request leave but not others.
