Each mature plant yields 300 to 400 stems during the blooming season. The McDowells sell bundles of the perfumed flowers or turn the oil from the plants into soaps, lotions, shampoos for pets, teas, coffees and more. Other, shorter-stemmed varieties aren't as good for bundling, Debbie says, but make great specimen plants.

Gardenias are a popular landscaping plant in the south, and make a wonderful addition to any Texas garden. If they are planted in full sun, gardenias can grow up to 6 feet. Gardenias prefer temperatures between 68 and 74 degrees F, and they enjoy high humidity areas, but dry climates can support gardenias if the plants are regularly watered.
