Most of them are literary classics, like The Great Gatsby, A Tale of Two Cities, Crime and Punishment, etc.

Saab 9000 Engine

The Saab 9000 is an automobile produced by the Swedish company Saab from 1984 to 1998. Representing the company's foray into the executive car scene, it was developed as a result of the successes of the turbocharged 99 and 900 models. The 9000 remained in production until May 1998 and it was replaced by the Saab 9-5 in late 1997, although some final cars were produced into 1998.

Saab 9000 - this is the car that was used in testing the new engine. It was quite an interesting test, the first day of testing resulted as 1500 Finnish Marks ticket for speeding. This is the only car with the v8 engine in it, There was 5 V8-engines built overall, and engine block has been designed and casted in VALMET TRACTOR ENGINE PLANT.

Saab 9000 with V8 engine - SAAB Planet

Despite the name it is not an H engine or horizontally opposed engine, but a slanted inline-4. The H engine was introduced in 1981 in the Saab 900 and was also used in the Saab 99 from 1982 onwards. H stood for high compression, higher compression was part of the update from B to H engine. It continued in use in the 900/ 9-3, 9000, and 9-5.

There's no elegantly loquacious way of saying this, so I'll just say it: Our car doesn't have an Aero engine. An automatic Saab 9000 Aero should have a B234L engine and ours has a B234E engine. The engine was changed at some stage and an Ecopower engine was installed.

Our Saab 9000 Aero - Swadeology

Saab 9000 Engine Tuning The 2litre engine are about as strong as engines get and are more than happy to rev, and due to their shorter stroke and more rev happy than the 2.3litre engines. Tuning the engine up to 1991 year is easy but make sure the car has an intercooler and Performance Control Valve.

The "hotter" 9000's such as Carlsson and Aero models make a good basis for out and out road-eating monsters able to cover huge distances in very short times, but for more everyday use, a 2.0 or 2.3 Ecopower model is a very good basis for tuning.

Saab 9000 Parts & Upgrades | Abbott Saab

The new engine also had to fit transversely in the nose of a Saab 9000. (The Lancia Thema 8.32 of 1986 had shown that it was possible to mount a V8 in the Type Four platform also used by the 9000.) The team fabricated a test engine block out of two four-cylinder blocks joined at the crank.
