Science | AAAS

Science (from the Latin word scientia, meaning "knowledge") is a systematic enterprise that builds and organizes knowledge in the form of testable explanations and predictions about the universe. The earliest roots of science can be traced to Ancient Egypt and Mesopotamia in around 3500 to 3000 BCE.

Science News: Health, Robotics, Climate Change, Space News ...

Science defined simply as knowledge of natural processes is universal among humankind, and it has existed since the dawn of human existence. The mere recognition of regularities does not exhaust the full meaning of science, however. In the first place, regularities may be simply constructs of the human mind. Humans leap to conclusions.
