Science and Citizens - ZED Books

The underlying theme of this series is to increase the attention on issues of rights and citizenship seen in different settings. The globalisation process entails, amongst other things, an expansion of science claims at the same time as 'publics' are formed around the world questioning and opposing science as a new discursive form of colonialism.

Science and Citizens: Globalization and the Challenge of ...

Under globalization, politics can take place above the state through political integration schemes such as the European Union and through intergovernmental organizations such as the International Monetary Fund, the World Bank and the World Trade Organization. Political activity can also transcend national borders through global movements and NGOs.

Globalization of Politics - Global Policy Forum

Globalization is the process of increased interconnectedness among countries most notably in the areas of economics, politics, and culture. McDonald's in Japan, French films being played in Minneapolis, and the United Nations are all representations of globalization.

Globalization in the Modern World

1 Globalization of Science and Technology “There is no national science just as there is no national multiplication table.” 1 Anton Chekhov (1860-1904) While globalization of science is by no means a new phenomenon, the 21st century science and technology (S&T) enterprise is more geographically distributed, more interconnected, and more dynamic than ever before.

1 Globalization of Science and Technology | Strategic ...

Thus, in order to grasp the significance of technology as a knowledgeable global citizen, I shall refrain from the kinds of naive descriptions of technology expressed above, and instead penetrate the “real world of technology” that underlies our everyday experience. 2. The real world of technology
