a business challenge for centuries. But the nature of the task is changing with the accelerating shift of economic activity from Europe and North America to markets in Africa, Asia, and Latin America. McKinsey Global Institute research suggests that 400 midsize emerging-market cities, many unfamiliar in the West, will generate nearly 40 percent of global growth over the next 15 years.

The global company's challenge | McKinsey

Environmental challenges may increase risks to food, energy and water security on a global scale. Global environmental challenges, such as impacts of climate change, loss of biodiversity, over-use of natural resources and environmental and health issues, are critically linked to issues of poverty and the sustainability of ecosystems, and consequently, issues of resource security and political stability.
