### (PDF) Global political economy - ResearchGate

International political economy, also known as global political economy, refers to either economics or an interdisciplinary academic discipline that analyzes economics, politics and international relations. When it is used to refer to the latter, it usually focuses on political economy and economics, although it may also draw on a few other distinct academic schools, notably political science, also sociology, history, and cultural studies. IPE is most closely linked to the fields of macroeconomi

### International political economy - Wikipedia

In his pioneering Economics of Interdependence (1968), Richard Cooper argued that the most serious problem of the postwar international economy was the intensifying clash between the economic and technological forces unifying the globe and the world's continuing political fragmentation.<sup>1</sup> Trade, investment, and financial flows, Cooper pointed out, were creating an increasingly integrated and highly interdependent global economy. Yet nation-states through such means as trade protection ...

### Global Political Economy: Understanding the International ...

The political economy of any one nation, however, is interlinked with the global economy, and because of this the scale of activities in the largest economies really does matter—they may even be of greater importance to a nation's ease of recovery than the effectiveness of its COVID-19 management regime.
