But intellectual property confers legal rights in intangible form. The three primary types of intellectual property are copyrights, trademarks, and patents. Each of these three bodies of law protect very different types of work, and it's worth learning the differences between them before determining whether you might qualify for protection.

The copyright protects the form of expression rather than the subject matter of the writing. For example, a description of a device could be copyrighted, it would only prevent others from copying the description; it doesn't prevent others from writing a description of their own or from making and using the device.
