Mining the American West Series #1 [Yellowcake Towns] provides us with not only an in-depth picture of the fluctuations of the demands for uranium over the previous half century but also a personal look at the health and economic implications on people and communities who supported such ventures at the behest of the government."

University Press of Colorado - Yellowcake Towns

Uravan is an abandoned uranium mining town in western Montrose County, Colorado, United States, that is now a Superfund site. The town was a company town established by U. S. Vanadium Corporation in 1936 to extract the rich vanadium ore in the region. As a byproduct of vanadium extraction, small amounts of uranium were also produced, at the time mostly used as a yellow pigment. The town was located approximately 90 miles south-southwest of Grand Junction along the San Miguel River. At one time,
