REPAIR PARTS | 4-jconsultinginc

I would seriously look into buying the Akira Seiki. From what I have heard and talked to a couple

shops they are very nice machines. I had Akira Seiki run a program for me and it took 1.26 minutes to run with the high speed turned on and the Sharp with the Fanuc Oi control and the high speed on it could only do the program in 3.49 minutes.

CNC and manual machining by Pro Engineering

Need help with our Akira Seiki SL25 Turret. Indexed close to the chuck in manual mode and hit E-stop mid index to prevent a crash. Turret DID NOT Crash. Reset machine and now I'm getting a "turret not ready 1009 Alarm". I powered down, and let sit about 10 min. Restarted, still no joy. Checked the contactors in the amp cabinet, no joy...
