UHC Concept Note draft for discussion with Goj

This concept note has been prepared to outline a response by UNDP to support low carbon growth and climate resilience in the Arab region. Current climatic variability in the Arab region indicates a trend towards an increase in surface air temperature and a decrease in rainfall. Hotter and drier conditions will likely exacerbate the frequency of extreme climate events, such as sand and dust storms, droughts and heat waves and will hamper agricultural production, particu - larly rain-fed ...

Concept note - UNDP

Concept notes that are successful at this stage will pass to the second stage of the competition where UNDP will ask applicants to submit a full business proposal to be prepared in a format provided by the UNDP, after which successful applicants will pitch their ideas or business venture to a panel for final selection and award.
