Dynamic Debt Solution

Debt deflation is a theory that recessions and depressions are due to the overall level of debt rising in real value because of deflation, causing people to default on their consumer loans and mortgages. Bank assets fall because of the defaults and because the value of their collateral falls, leading to a

4. Taxability of Dynamic Bond Funds. As dynamic bond funds are a class of debt funds, they are essentially taxed like any other debt fund. The dividend offered by these funds are added to your overall income and taxed as per the tax slab rate you fall under. This is known as the classical way of taxing dividends in the hands of investors.
