Open and fill out worksheet on one computer and watch Amoeba Sisters on the other. I THINK I found a way other than youtube, so hopefully it will work! Follow directions on top of worksheet. 2. Evolution Webquest You may work alone for up to a 120 score, or with a partner for a 100. It is a LONG one - parts A thru U from three different websites.

Zoology - Mrs. Miller

Simulate changes in moth population due to pollution and predation, and observe how species can change over time. Students play a bluebird trying to survive by eating moths in a forest. In one forest, the bark is light colored and the other has dark colored bark, similar to Kettlewell's experiment. Students collect data and draw conclusions.

Peppered Moth Simulation

The type of selection is Directional, for one of the extremes is being favored (dark mice) and one is being selected against (white mice) See directional selection graph above.
