Getting Clear on the Basics - AMNESY

The GUE Cave Level 1 class provides an introduction to diving in an overhead environment. This unique environment requires proper training, and the GUE Cave 1 class provides divers with a thorough understanding of the cave environment as well as the potential dangers associated with cave diving.

Cave Diver Level 1 | GUE

Venturing deeper into caves and discovering more and more passages may bring the need for additional time for exploration and redundancy for safety. The GUE Closed-Circuit Rebreather Cave Diver course will prepare already experienced divers to safely use CCR technology while cave diving.

CCR Cave Diver | GUE

In this special GUE class, divers will learn all the required skills to conduct a full survey of the cave starting from an in-water survey to drafting a map of the cave. During the class, team-based survey procedures and dive planning are introduced together with additional tools and specialized equipment.

GUE Cave 1 Training-Day 1 and 2, Field Drills and Our ...

GUE diver training started with technical cave and technical diving classes, expanding into recreational training while refining its most popular class known as GUE Fundamentals. [citation needed] GUE also adheres to a standardized equipment and procedural system, which it claims enhances diver safety and efficiency by reducing confusion and helping divers act as a team.

Global Underwater Explorers - Wikipedia

Ideally, I would say combine cavern/nitro (or take cave 1), and then combine apprentice/full (or take cave 2). I do believe that GUE/NAUI Cave 2 & IANTD Technical Cave are better options because they include stage diving, just in case the student doesn't have access to mentors.

Interested in cave diving (eventually!) - Page 3

In February, GUE released a new version of the Standard Operating Procedures Manual. The current version is now 3.0. One of the major changes in this new SOP is an update to the ascent rates used in Tech 1 and Tech 2. If your last GUE course was a while ago (10ish years), you may also find changes to minimum deco first stop depths.
