The Hiller UH-12, derived from the Model 360 two-seater of 1948 with a 180hp Franklin engine, occupies an important place in the history of the American helicopter industry in the fifties. Stanley Hiller Jr., who built the aircraft, was something of a whiz kid, in that he designed and built his first helicopter, the XH-44, in 1944 at the age of only 18.

Hiller 360 / UH-12 / OH-23 helicopter - development ...

The Bell 47 had clutch shoes, like brake shoes, & needed the throttle to be reduced at a certain forgotten rpm to fully engage. The Hiller bags were a bit different but seemed to work well considering we were students. The RN replaced the 12C with the 12E in 1963; it was great flying a brand new machine.
