Department of Pathology

Histology, also known as microscopic anatomy or microanatomy, is the branch of biology which studies the microscopic anatomy of biological tissues. Histology is the microscopic counterpart to gross anatomy, which looks at larger structures visible without a microscope. Although one may divide microscopic anatomy into organology, the study of organs, histology, the study of tissues, and ...

Histology - Wikipedia

Surgical Pathology is a clinical service oriented to patient care. The surgical pathology staff and faculty are responsible for meeting the needs of our patients and physicians, and it is imperative that specimens be handled appropriately and expeditiously so that reports can be signed out accurately and in a reasonable amount of time.
