Technological advances and its effects on human evolution ...

This was quite different to earlier ideas of Taylorism in technical organisations. The idea of socio-technical improvement developed to find the best match between the technological and social components of a system. Hence, the term socio-technical system was coined to describe holistically the functioning of these social and technical components.

In the light of this convergence of styles
and technical tools, Citizen Kane is a
prime example of the possibilities
enabled by the technological evolution.
However, it is most important to
remember that human inventiveness is
responsible for the realization of these
technologies in the successful manner
seen in Citizen Kane .
