Cytation™ C10 Confocal Imaging Reader combines automated digital confocal and widefield microscopy with conventional multi-mode microplate reading. The spinning disk confocal module adds increased resolution and optical sectioning capabilities to the Cytation range. Cytation C10 also includes widefield fluorescence, brightfield and phase contrast optics.

Cytation C10 Confocal Imaging Reader - Overview - BioTek

A biosafety level (BSL), or pathogen/protection level, is a set of biocontainment precautions required to isolate dangerous biological agents in an enclosed laboratory facility. The levels of containment range from the lowest biosafety level 1 (BSL-1) to the highest at level 4 (BSL-4). In the United States, the Centers for Disease Control and Prevention (CDC) have specified these levels.
