Lucas Girling - Haldex product category
The Girling disc brake wasn't just a gear change for F1, it became standard for every car all over the world. And when it counts, the automotive world still counts on Girling. The reason is simple. From the F1 challenger chasing a title around the treacherous bends of an infamous track like the Nurburgring, to the domestic driver that takes ... Girling
Re: F700 Lucas Girling system brakes in reply to jeffro_bodine2000, 05-03-2013 16:16:28 I have worked on these systems quite a lot. Brake Pressure is supplied by a power steering pump.No or low pressure, the brake pressure light stays lit.The electric motor /pump is a back-up system should the engine die or you loose pressure.Some also have a ... F700 Lucas Girling system brakes - Yesterday's Tractors
I am working on a 1997 Ford F800 equipped with Lucas Girling parking brakes. My problem with these 'marvels of engineering' is that the electric pump motor stays on after the engine is running AND the indicator light (that normally illuminates when the park brake is set) comes on when the park brake is released.

Back Plate Assemblies with Shoes - Haldex product category
The Fords you are seeing have the God-forsaken Lucas-Girling brake systems. They were a traditional hydraulic system (front disk, rear drum) with a brake chamber on the rear that uses mechanical spring force to apply the rear brakes for parking. Hydraulic pressure (ATF used as fluid) was used to release the parking brakes.
