Retrieving Experience: Subjectivity and Recognition in ...

In Retrieving Experience, Sonia Kruks engages critically with the postmodern turn in feminist and social theory.She contends that, although postmodern analyses yield important insights about the place of discourse in constituting subjectivity, they lack the ability to examine how experience often exceeds the limits of discourse.

Retrieving Experience - Subjectivity and Recognition in ...

Feminists have grown wary of talking about “women’s experience.” Once regarded as the very bedrock of second-wave feminism, “experience” is today a suspect concept. As second-wave feminism emerged in the late 1960s and the 1970S, women’s experience was a touchstone.

Sonia Kruks' latest book, Retrieving Experience, is a valuable contribution to ongoing debates about the relevance of feminist philosophy in a period of relative political quietism. It also offers timely reminders of historical continuities between phenomenological and postmodern conceptions of subjectivity and political engagement.

Retrieving Experience Subjectivity And Recognition In ...

This phenomenon refers to the failure to recall a word from memory which is combined with the feeling that retrieval is imminent. There may be a partial recall in this case. There is a perception of a wide gap between the knowledge of a specific word or subject and being able to retrieve the names involving said subject or the word.

Sonia Kruks, Retrieving Experience: Subjectivity and ...

Recognition is a type of memory or “recovery”. This recovery or memory is made up by the access of past information stored in our memory. These memory processes were classically studied with a list of words or images that the subject had to memorize and later remember.

Recognition- Cognitive Ability

Recognition Recognition is memories and perceptions that do not require depth of processing. Brain systems are extremely complicated and one idea that was put forth by psychologists Fergus Craik...
