Analytical psychology, or Jungian psychology: emphasizes the primary importance of the individual psyche and the personal quest for wholeness. Jungian Archetypes : One area of Jungian psychology that can become a bit overwhelming is his use of the archetype model.

### **Jung and his Individuation Process | Journal Psyche**

Jung's theory of the psyche is (like Freud's) based on the notion that our conscious experience represents a relatively small part of our total psychological functioning. In reality, much of our experience, and many determinants of our behaviour, exist outside our awareness, in areas of the psyche that are unconscious.. In Jung's analytical psychology, the unconscious tends to compensate for ...
