The Crash Course: The Unsustainable Future of Our Economy ...

The Crash Course, despite its flaws, posits our most plausible future. It is an important book that adds even more evidence to the growing body of knowledge that tells us we're on a collision course with reality, and that in the end — if we don't change course — the crash will be mean, nasty, and brutish.

The Crash Course The Unsustainable Future Of Our Economy ...

The Crash Course has provided millions of viewers with the context for the massive changes now underway, as economic growth as we've known it is ending due to depleting resources.. But it also offers real hope. Those individuals who take informed action today, while we still have time, can lower their exposure to these coming trends — and even discover a better way of life in the process.
