SMALL BUSINESS CYBERSECURITY CORNER The vast majority of smaller businesses rely on information technology to run their businesses and to store, process, and transmit information. Protecting this information from unauthorized disclosure, modification, use, or deletion is essential for those companies and their customers. With limited resources and budgets, these companies need cybersecurity ...

NEWS from NIST! The Small Business Cybersecurity Corner ...
Over the last few years, improving power extraction from the wind energy conversion system (WECS) under varying wind speeds has become a complex task. The current study presents the optimum maximum power point tracking (MPPT) control approach integrated with neural network (NN)-based rotor speed control and pitch angle control to extract the maximum power from the WECS. So, this study presents ...
